Introduction:

➢ Hello Ma'am, ("Good morning" , "Good afternoon" , "Good evening".) Thank you for giving me the opportunity. My name is Sandip Makwana, and I'm 21 years old. I'm from Rajkot. I come from a nuclear family with 5 members. My father is a farmer, and my mother is a housewife. I have two elder brothers. The first one works for the central government in Ahmedabad, while the second one is a civil engineer in Rajkot. I completed my 10th grade from Ultra Vision Academy in Surendra Nagar in 2018, scoring 56% in the SSC board exam. I completed my 12th grade from Indian Public School in Surendra Nagar in 2020, scoring 67% in the HSC board exam. I completed a Bachelor of Computer Application at Geetanjali Group of College in Rajkot in 2023. Currently, I am undergoing IT training at Tops Technology in Rajkot. I have completed a web designing course which includes languages like HTML, CSS, JavaScript, and advanced JavaScript. Additionally, I have learned frameworks and libraries such as Bootstrap and jQuery. I have also completed the backend language Python, and I am in the process of learning its framework Django.

Key Personality Traits:

➢ I am known for my creativity, which allows me to think outside the box and come up with innovative solutions to problems. My analytical skills are strong, enabling me to break down complex issues into manageable parts and tackle them systematically. I have a deep passion for problem-solving, which drives me to constantly seek out and overcome new challenges.

Interest in Technology:

➢ My interest in technology began at a young age when I was fascinated by how things work and how technology can transform our daily lives. I chose this career path because I believe technology is a powerful tool that can solve some of the world's most pressing problems. I am particularly interested in django backend developer. because of its potential to make a significant impact.x`
